## 1. About TZY ENGINEERING PLC

TZY Electromechanical and Electrical work contractors were established in 2006 E.C under Ethiopian commercial registration and business license. Proc no k/k AA/14/667/691555/2009 by Ethiopian nationals.

This company was founded in Ethiopia by three Electrical Engineers, Those are TEKLAY HAILE, ZEKARIAS DAMTEW and YOHANNES TOLOSSA. All of them have good knowledge and experience on electrical and electromechanical works for instance in power concern works, Telecom project, building electrical installation and design, on

different electromechanical works like Air conditioning installation, solar energy, pipe works, structure etc. Our purpose is to be a leader in the electromechanical and electrical works by providing enhanced service relationships, profitability and turning knowledge into value for the benefit of our clients, government and people. Our company aims to provide client interest and keep loss of power EEPCO.

Our values determine how we behave, with clients and each other. They define what we stand for and how we presume our activities help us to work together in the most effective and fulfilling way. This enables us to create a strong organization culture constantly throughout the network.

We believe in the value of relationships and we plan to see client relationships like partnership and truly believe that our success is the result of your success.

## 2. Core values

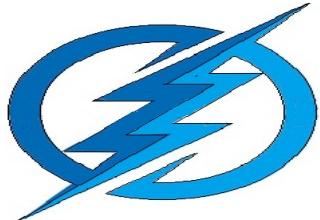

- Integrity
- Quality of workmanship
- Reliability
- Innovate thinking
- Transparency and honest
- Continuous improvement.

## 3. Mission

- With our strong technical and project management
- Delivery team, we will exceed our client Expectation
- Quality and reliability.
- To build up modern or advanced services
- Arranging for short, medium and long term plan action and implementation.
- To build a long term relationship with our customers.
- To utilize new and appropriate technology and

Machinery Construction of electromechanical and electrical work.

Company exists to provide fast, reliable technology assistance to local business

## 4. Vision

To have highly technically oriented and manage

Mental staff.

To provide quality services that exceeds the

Expectations Of our esteemed customers.

To be recognized as the industry leader in quality

Services And Project management in the power sector.

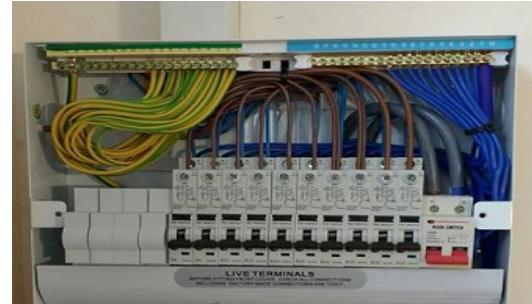

## 5. What we do

Our company offers a wide range of services to our clients. We have listed below the services that we offer to our clients along with a brief description.

### 1.1. Electrical work:

Pole Erection , stringing and transformer Installation.

Generator & ATS installation and maintenance,

Building electrical Design and installation.

Maintenance building electrical installation.

Industrial electrical installation.

Power Board and UPS installation.

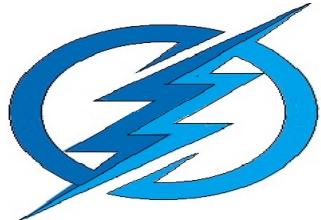

CCTV camera, fire alarm, security camera Design and Installation and Access control.

Building network installation like patch panel, Hub and switch.

Control system and Maintenance for motors and generators.

Drive Test for single sites (SSV), Cluster test and Optimization

## 6.2. Electromechanical work:

Air conditioner installation and its maintenance.

Street light installation.

Machine installation and its maintenance.

Sanitary.

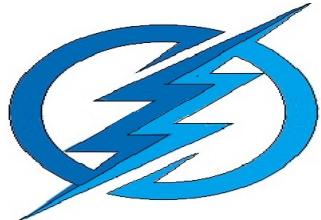

Aluminum partition.

Solar power installation.

Piping work.

Tanker installation.

## 6. Objectives

The main objectives of the company are to focus its activities toward the more specialized services and become a leader in the profession.

Our objectives include among others:

### 0.1. For individual (owners)

Generates sufficient cash flow to finance future growth and development and to provide the resource needed to achieve the other objectives of the company.

Expand the business at a rate that is both challenging and manageable serving the market with innovation and adaptability.

## 10. WORK EXPERIENCE OWNER OF THE COMPANY

### 20.1. TEKLAY HAILE (General Manager)

As a position of **project supervisor/ drive test engineer** in **I engineering group SAL branch** of Ethiopia, at **Ericsson** and **ZTE projects**.

As a **Drive test Engineer** in **Huawei Company**.

As **site engineer** in **GTC Global Telecom Company** in **Ericsson Project**.

As **site and drive test Engineer** in **Axumic technology PLC**, at **Huawei project**.

During the campus period final project industrial installation and rehabilitation at Bruhtesfa irrigation and water technology.

During campus period mini project in industrial installation at Mesfin industrial engineering

Internship project UPS design.

Oct, 2005-feb, 2005 internship program in Moha soft drinks industry.

### 11.2. ZEKARIAS DAMTEW (Technical Manager)

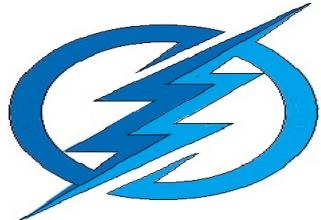

AS **Drive test engineer** in **Huawei Company** in different regions.

AS**Drive test** in **Huawei** by local subcontract company **Axumic technology**.

AS **SITE ENGINEER** in **Ericsson** by subcontract company **global Telecom construction(GTC)**

Oct, 2005-feb, 2005 internship program in Moha soft drinks industry..

During campus period mini project in industrial installation at Mesfin industrial engineering

**TZY ENGINEERING PLC**

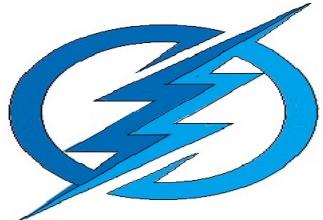

During campus period final project industrial installation and rehabilitation at  
bruh tesfa irrigation and a water technology

### **10.3.YOHANNES TOLOSSA (Finance Manager)**

**AS GROUND TECHNICIAN, at ETHIOPIA AIRLINES.**

As **site supervisor** in Axumic Technology PLC, in the **Meta Abo project**.

During campus period final project industrial installation and rehabilitation at bruh  
tesfa irrigation and a water technology.

Date: Oct 5, 2018  
Ref: IE/PMO/180510/01

**To: Teklay, Zekarias & Yohannes Electric Installation P/Ship.**

**To whom it may concern**

Teklay, Zekarias & Yohannes Electrical installation partnership (TZY Electrical works) is currently working as subcontractor for the project IE Network solution had at Office of Federal Auditor General (OFAG). The project title was OFAG-Procurement of IT goods and Equipment for the Tax, Audit and Transparency Programme. This project had electrical and air conditioner installation work that need to be done in order to deploy the ICT technologies in a Data center.

In this project TZY company has worked on

- Installation of Electrical boards (MDB & SDB)
- End to end electrical cable connections.
- Installation of UPS
- Installation of Air Conditioner(AC)
- Installation of Generator
- Testing and commissioning work.

TZY is working with great commitment to both quality and time. TZY Electrical team's work ethics and discipline was to our satisfaction and we would like to recommend TZY Electrical works and their team to any related work.

We are sure that any company that work with TZY will notice their professionalism and benefit from that as IE did. We wish TZY a great success in all the service they give in the future.

Sincerely
